Life Path

Ascendant In Aries

PROFESSIONAL - LIFE-PATH: Self-assertion

Your whole life style is dynamic and full of action, so you need a job which provides many challenges and which gives plenty of excitement. You may have leadership abilities, especially because you are very competitive and generally good at achieving short-term goals. However your personal style tends to be rather aggressive or confrontational, so you may often find yourself getting involved in conflict. You force people into a role in which they have to smooth ruffled feathers or compromise to suit your temperament. You have a tendency to be impatient, and though this means that things get done quickly, you may not have the determination to consolidate things, once your goals have been achieved. Your basic direction in life is towards greater independence and self-sufficiency.

PERSONAL - LIFE-PATH: Self-assertion

You are young at heart and very enthusiastic in the way you handle life's challenges. You like to tackle things head-on, and impulsively cast yourself into the fray. You probably have to struggle with a considerable temperament, but basically you are innocent and naive with very few bad intentions. You have a direct and honest style. You do not like anyone tampering with your freedom or telling you what to do. This means that you are attracted to the kind of partner who is willing to go along with your point of view, and follow your lead in most matters. In a sense you are egocentric, because you give your own goals first priority. Nevertheless it is important for you to stand out amongst others as an individual, and to be a pioneer in one way or the other. Partnership will mellow you, and you may be able to learn the spirit of compromise as you get older.

Ascendant Opposition Sun

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

As these two planets are on opposite sides of your horoscope they indicate that you are split between two quite different drives. As a result you tend to imagine other people with the negative qualities described.

PROFESSIONAL - LIFE PATH: I, myself, me

Whether you would prefer to have a low profile or not, you will often dominate your surroundings through the force of your personality. Professionally you strive to do your very best - for success is a matter of honour for you. You have a magnanimous disposition, and are generous in your dealings with others. Creative work and self-expression must be an important element in your professional life. You stand on your pride too much.

PERSONAL - LIFE PATH: I, myself, me

You have a radiant personality, with a touch of self-importance. You take yourself - and the impression you make on others - very seriously indeed. Some people may consider you self-centred. You tend at least to be the centre of attention, and although you invest all of yourself when you relate to others, you give your own personal development needs priority. You have plenty of surplus energy, and your playful nature can make you a figurehead for young people.

Ascendant Sesquisquare Venus

This aspect is of medium strength and its influence will often be felt, though not acutely.

The tension created between these two planets is for the most part on a hidden and unconscious level. It can manifest as stubborn confrontation in situations which threaten the ego or sense of emotional security.

PROFESSIONAL - LIFE PATH: Aesthetic comportment

You have the ability to create a pleasing impression, and generally you comport yourself diplomatically and with all the social graces. As the ability to win the affections and confidence of others is one of your greatest talents, you would do well dealing with people in one form or another in your professional life. Aesthetic issues are also of great importance to you, and this may be reflected in your work.

PERSONAL - LIFE PATH: Aesthetic comportment

You exude an aura of grace and good taste, and this can win you many friends and admirers. Your dress, and taste in personal adornment, creates a very harmonious and pleasing atmosphere. You are easily seduced by beauty, and often led astray by affairs of the heart. Stable relationships can be threatened by your need for romance. Love is the spice of life. You have a weakness for sensory stimulation and luxury.

Mars In Libra

PROFESSIONAL - DRIVES: Manifest your judgement.

You have a strong sense of justice and are strongly motivated to create balance in your working environment. Your greatest asset is your aesthetic sense, and this can manifest in employment where matters of taste are important - for example fashion, decoration and other areas where a good judgement is required. Your manners are most probably rather refined.

There can be an element of indecisiveness as far as decision-making is concerned. First of all you are not comfortable offending others, and secondly you have a true ability to see both sides of an issue. By coming down on one side or another imbalance is created, and this brings a sense of discomfort. So you will tend to make compromises and generally get by on your charm. This can be a disadvantage in situations where a firm stance is required. People feel nervous when they don't know what position you take - this can give an untrustworthy impression. It can be an advantage for you to jump sometimes, instead of staying on the fence.

PERSONAL - DRIVES: Manifest your judgement.

Other things being equal, you will have a gentle manner and controlled temperament, except in situations where you feel an injustice is being done. In these circumstances you fight hard to get a fair hearing for yourself and others. You have a natural flair for handling public relations, and this can certainly give you success when dealing with the opposite sex. Men with this position of Mars have a tendency to flirt, and may take advantage of women through being manipulative. Women are attracted to men with good taste, poise and style, though there is a tendency to be deceived by appearances and smooth talk. Conflicts in relationships can arise over unfaithfulness or differences in opinions as regards taste and judgement. Though you are strongly motivated to enjoy partnership, contention often arises in one area or another. You are on the one hand reluctant to get into conflict, yet on the other quite sharp in your judgement of others.

Mars In 6th House

PROFESSIONAL - DRIVE: Daily activity

You are a dynamic worker, attacking tasks head-on with an inimitable dynamism and enthusiasm. Your example will certainly motivate others, but co-operation with a team is not your strong point - unless you are the leader. However as a leader you tend to be too bossy, or to drive others too hard. Tensions abound in your working environment. You dislike being told what to do, or when to do it, and function best when you are left to yourself. You would thrive if you were self-employed or free-lance. If you have to work together with others you must learn to control your temperament - you may be irritated by the lethargy or inefficiency of others, and defensive of your own territory. If you stick to being helpful, colleagues will appreciate you, if you try to have your own way, you will be seen as a troublemaker. You function well however in jobs which require courage and the ability to confront others. You know how to handle tension and stress at work, and can thrive on danger or conflict - if it is not there you may get bored. You have a talent for rationalising inefficient concerns, and also for physical work. There may be engineering, mechanical or medical ability.

PERSONAL - DRIVE: Daily activity

You are something of a worker, so whether you are on the job or at home with the family you like to be active. You probably have mechanical ability and will feel most comfortable when you are performing useful tasks. If your partner appreciates your hard-working nature things will go fine - however relationships may function better if you take more time off. Conflict over who does what at home can sabotage harmony in relationships. Do not expect loved ones to take the same share of the housework as you do - you need to burn off your excess energy, your partner probably does not.

Identity

Sun In Libra

PROFESSIONAL - IDENTITY: Create balance

It is in the complex inter-reaction with others that you learn to develop a sense of self. You can be an expert in social relationships, and skilled in initiating social contact. You are powerfully motivated by a natural sense of aesthetics, justice and harmony, and in your dealings with other people you are skilled at the art of diplomacy. You dislike taking sides and have the ability to see things from several different points of view. To others you may appear to be indecisive; but actually you need time to consider all the issues. Your natural talent to put yourself in other people's shoes can mean that you play down your own needs. By cultivating an inner firmness which gives you the courage to take on a confrontation when necessary, you will be able to make the most of your ability to relate harmoniously to others.

PERSONAL - IDENTITY: Create balance

The major formative experiences in your life are connected with relationships. In these key periods changes connected with your intimate bonds to another will lead to a reevaluation of who you are and what your role is in life. You learn at these times that being true to yourself means not always compromising your needs for the sake of a relationship. Indeed this kind of compromise often involves an element of manipulation - if only through your natural charm. Nevertheless, you feel a sense of self most strongly when in a harmonious relationship and it is here that your talents lie. Your appreciation of beauty and your good taste brings an atmosphere of peace. You show a natural concern for others, but you demand that this concern goes both ways - you cannot accept

a relationship, if the romance has gone out of it, and you are skilled at recreating conditions for love.

Sun In 6th House

PROFESSIONAL - IDENTITY: Service

You invest a great deal of your creative energy in your work. Recognition and appreciation of your efforts by colleagues is important for your self-esteem, and people will generally look up to you at work. Having a talent for delegating work you thrive when you have a position of authority and are best suited in middle-management with people both above and below you. You are strongly motivated to be helpful and are quite willing to put the interests of co-workers before your own - top managers do not do this. You would work well in service industry, or in any field in which your expertise is at the disposal of others. Problems at work arise when you do not get recognition and respect, and it is important for you to know when to assert yourself and set limits in the demands of others, and when to serve others wholeheartedly. You are a conscientious and hard-working person with a talent for improving efficiency in your working environment.

PERSONAL - IDENTITY: Service

In your search for self-expression you will find great meaning in the concept of service. As such you are a very unselfish person, and your greatest satisfaction comes from helping others or being useful. You can find meaning in daily rituals and small acts of devotion. By watching and improving the way things function you find a place for your identity in the larger scheme of things. Your partner will appreciate your helpful nature, but you have to know when to draw the line - otherwise you may end up with all the work. You have a talent for matters concerning health and diet, and you can gain insight into your identity through developing your consciousness of the interdependence of mind, emotions and body.

Sun Semisquare Venus

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

The influence of this planetary connection is subtle and unconscious. You can however expect quite acute periodic crises when the negative effects of the aspect manifest themselves.

PROFESSIONAL - IDENTITY: Style

This contact evokes in you a very strong aesthetic awareness and quite considerable personal charm. You have the ability to make a warm and enriching contact to others and inspire them with your presence. Your diplomatic talents, and strong sense of personal values, gives you many advantages in a variety of areas. You are not a forceful person, and in general you do not like competition, but you can get your way through persuasiveness and charm. Your natural charisma and winning manner ensures personal popularity. You would not be happy in a job in which confrontation and conflict plays a role, and your talents are best utilised dealing with personnel, diplomacy, or matters related to taste, style or a refined judgement.

PERSONAL - IDENTITY: Style

It is extremely important for you to feel liked, and you go to considerable lengths to make a good impression. You are personally warm and affectionate, and enjoy both making and being the recipient of romantic gestures. Your mild manner probably comes from your father, who may well have been very loving and considerate. Indeed, women with this aspect often idealise their fathers and have difficulty shaking off their attachment. Later in life they will tend to become romantically

involved with a softer type of man, in whom they imagine very gallant properties. For both sexes problems can arise through denial of the shadow side of the personality and the reluctance to see that people cannot always be ladies and gentlemen. Sometimes too, there may be a tendency to manipulate others through the conscious use of charm, and a far too rosy self-portrayal. Nevertheless personal self-esteem is a central issue for the identity, and learning to love and accept yourself is a prerequisite before you can function well in a relationship.

Sun Conjunction Mars

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart. Two energies are unified into one in this planetary aspect, and you will express this energy in a very personal way, for good or ill depending on other factors in your chart.

PROFESSIONAL - IDENTITY: Competition

You are an extremely dynamic person with an excellent sense of when to grasp opportunities. You thrive on competition and love a good fight. You are no diplomat, but in situations which require courage and decision, you are the right person. Women with this aspect may early in life experience many conflicts with dominating or aggressive men, but ultimately these problems are solved by learning to be more self-assertive in a confident manner. You are suited to a job which provides you with a challenge. You have a pioneering spirit and are willing to take on the necessary confrontations to get ahead. You get bored easily, and when you get bored, you can get into trouble. When you encounter an obstacle you tend to bang your head against it until it gives way. It would pay for you to plan more before you act, and strive to be less impulsive. If you find yourself getting into unnecessary conflicts, try to cultivate a spirit of compromise. Winning is a little too important for your ego.

PERSONAL - IDENTITY: Competition

You are the kind of person who likes action, excitement and adventure. Being easily bored you tend to be rather provocative. Women with this aspect may have had a young or immature father, and in the more extreme cases there may even have been physical violence in childhood. Alternatively the woman with this aspect will have had a "buddy" relationship to the father and become involved with masculine pursuits. Later in life there will be a tendency to be attracted to a very masculine type of man. It may be important for the woman to really respect and look up to the man - but there is often an attraction to rather immature males, who never quite got out of adolescence. Subsequently the man may have great difficulty living up to masculine archetypes which basically exist within the woman's character, and this will lead to conflicts or battles of power, until the woman accepts a more personally assertive role. Men with this aspect are very concerned about their masculinity and take pride in their ability to compete in the world. Sexual performance and the ability to take on a classic male role in relation to a woman are essential elements in the character. This Tarzan syndrome has its drawbacks. Problems can arise because of lack of sensitivity to the emotional needs of the woman. The man's over-identification with the male role can be perceived as faintly comical by the woman who would probably set greater store by demonstrations of tenderness and affection. The woman tends to be the prize which the man wins and later guards and protects.

Sun Conjunction N. Node, Sun Opposition S. Node

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart. This conjunction shows a fusion of energies in you. Both the positive and negative sides of this aspect will be an integral part of your character.

PROFESSIONAL - DESTINY: The illusion of being

There may be a number of advantages for you in assuming a high profile in connection with specific groups of people. You may be elected as a figurehead, and your personal character can filter down to those you are connected to and have a profound affect on their lives. How to deal with the ensuing recognition or fame may, however, be something of a dilemma for you. Victories can ring hollow, and honour may bring disillusion, although you have a role to play in other people's eyes.

PERSONAL - DESTINY: The illusion of being

Contacts with other people will play an important role in your search to get into touch with your inner identity. Father figures - through their presence or through their disappearance - will force you to ask a lot of questions about the nature of your existence, and this will in time lead to new spiritual growth and vision. Influential people and - later in life - spiritual authorities, may be eclipsed through sudden inner realisations. Times of inner darkness alternate with the blinding light of Truth.

Emotions

Moon In Aquarius

PROFESSIONAL - EMOTIONS: Caring humanity

You are a very socially conscious person, strongly motivated to create cohesion in groups. Paradoxically however, you often feel on the fringe as far as your relationships are concerned. You have a taste for unusual environments and function best when you consciously choose alternative relationships where people's differences are more apparent than their similarities. This gives an attraction to foreign environments or experimental life-styles. With your natural friendliness, deep social commitment and group consciousness you will have a special ability for working with people on the social fringe. You have a striking intuition, and may have talents for an unconventional profession.

PERSONAL - EMOTIONS: Caring humanity

You were brought up in an unusual parental environment characterised by rather special family relationships. You probably learned at an early age that it did not pay to be too dependent, and neither does it suit you, as you prefer friendships based on equality and shared interests. As such it is likely that your family relationships were characterised by intellectual principles of equality or liberation, whilst you may have missed the emotional supportiveness most children take for granted, although you may well have had a very friendly relationship to your mother. As many of the deepest bonds in your life are to true friends or groups, some of your greatest difficulties are experienced when these attachments are broken.

Moon In 11th House

PROFESSIONAL - EMOTIONS: Social security

You have a professional talent for working with people in groups, especially if this involves caring or humanitarian projects. You feel at home in the crowd, and career satisfaction comes when you have a sense of belonging to the people you work with, and know

that they also appreciate you. You can become quite attached to pet projects and have some difficulty letting go of the reins when other people take over. You are passionately attached to idealistic principles as regards the treatment of special groups in society. You may also be interested in consciousness development in groups and have a talent for working with emotional problems in untraditional environments.

PERSONAL - EMOTIONS: Social security

You form very strong bonds to your friends and are extremely sensitive to how they treat you. You are both caring and concerned as regards their personal development, and easily hurt if they let you down in any way. You need to belong to a group, and your experiences in this area are strongly influenced by your school years. You tend to become too attached to a particular friend at this time, and this can bring problems when you both develop the need for change. During the course of your life you learn to develop a greater emotional detachment, so that you are not so easily hurt or disappointed by others. You may be over-sensitive as regards your social position.

Moon Square Mercury

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart. In your chart there is disharmony between these two planetary influences, and this will be reflected by many struggles both within your mind, and out in the world.

PROFESSIONAL - EMOTIONS: Emotional awareness

You have great persuasive talents because you make an emotional investment in everything you say. At its best you can use these communicative talents to sway the feelings of the people around you - obviously a great asset when speaking to a public. You know how to tune in to the mood of the crowd and have an instinctive talent for saying the right thing. You need to be passionately engaged in your work, and function best in a role which gives you human contact. You work better with people than with things, but there is good business talent, especially as regards property. You are not an analytical type, and your judgements are easily swayed by your feelings. Thus you are easy to read, and will often stumble verbally, when you encounter conflict. You would find success in a career in which you utilised your talent for listening and speaking to people.

PERSONAL - EMOTIONS: Emotional awareness

You are a person who likes to communicate on an intimate level with those you are close to, though you have difficulty opening up to those you do not know well. Other people are comfortable entrusting their thoughts and feelings to you however. Your word and tone of voice are always tinged by your emotions, and this ensures you a good audience. Your emotions tend to swing a lot, and when you are feeling negative it can be very difficult for you to express yourself clearly. Under extreme emotional conditions you will be rather irrational. You have probably been profoundly emotionally affected by sibling relationships, and even now may have a powerful emotional bond to a brother or a sister. Your school years will also have had a great emotional impact on you, for better or worse. You are extremely sensitive to being criticised or misunderstood on a mental level. In many ways you are able to build a mental bridge between the conscious and unconscious mind, clarifying emotions through mental awareness.

Moon Quincunx Venus

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy. The connection between these two planets means that you tend to overcompensate in the areas described by being too helpful. This means that you unconsciously encourage other people to take advantage of you.

PROFESSIONAL - EMOTIONS: Empathy

You have very winning ways with all kinds of people and can gain a great deal of personal popularity. Dealing with others - particularly the public - in some way or another, can be an important ingredient in your profession. You may simply like people; at least people feel as if you do. You have a particular talent for dealing with women, partly because you have an instinctive understanding of their ways. Women can play an important role in your professional advancement - indeed you may be rather dependent on their goodwill for better or worse. Basically you are a caring and sympathetic person - and you show it. Therefore you would function well in a position which gave you daily contact with people and the opportunity to support and nurture them in some way. You shun hard professional tactics and are easily hurt when rebuffed. This means that you may be too fragile to handle the rough and tumble of the marketplace. To feel secure you need to have a solid economy, otherwise you tend to be afflicted by worry. You have a talent for investment - particularly in property.

PERSONAL - EMOTIONS: Empathy

You have an affectionate nature - you have both the capacity to give succour and love, and a deep need to receive it. Obviously therefore, relationships are extremely important to you, and you tend to form lasting bonds at an early age. Actually the greatest bond will be to your own family, particularly the mother - for better or for worse. Men with this aspect tend to marry early and unconsciously compare their loved one with the mother. There is a tendency to slink back to the family home for a good meal from time to time, and the wife can have great difficulty asserting her own authority over the mother's. In more extreme cases the man evokes maternal behaviour in his partner, and finds her wanting sexually as a mistress. It is difficult to feel sexually attracted to a mother figure, so unfaithfulness can ensue, as the man seeks to fulfil his sexual needs elsewhere.

Women with this aspect have to learn to integrate the two feminine functions - maternal and erotic - into their lives in some way. If she has difficulty with this she will find the sexual element in the relationship deteriorating, and will end up spending all her time on the house or with the children. A maid might be the answer! For both sexes there is a tendency to be overattached and clinging, and too fixated on material security. Unconscious and unresolved childhood needs for love and security spill over into later relationships. It pays to develop a more detached attitude and a greater indifference to the need for constant approval.

Moon Trine Mars

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

PROFESSIONAL - EMOTIONS: Temperament

You have a dynamic and forceful personality, and generally get your way in your professional dealings. Your greatest enemy is your temperament - you get angry easily, and when you get angry,

you take ill-considered actions. So if your job involves dealing with the public, there will tend to be a lot of conflict. You may however function well if your job entails the need to confront people and get things done, but not if it involves diplomacy or sympathy. You are impatient, but on the other hand you tend to invest your heart and soul into your work and get things done quickly and efficiently. However, you create an atmosphere of tension around you, and are extremely sensitive to criticism. You often imagine attacks which do not actually take place, instinctively going on the offensive, or defensive, to deal with supposed threats. Obviously this kind of reaction evokes the very kind of attack you are seeking to avoid. Only by taking a long, cool look at your assertive nature and by developing greater sensitivity and calm as regards others, can you hope to win goodwill in your professional life.

PERSONAL - EMOTIONS: Temperament

You were brought up in an atmosphere of tension which has made you constantly on guard. Perhaps your mother was an unusually aggressive woman, or perhaps there were many struggles in your family life. Whatever the reason you tend to get easily upset now - especially in your domestic life. Women with this aspect are often attracted to emotional men who express their feelings passionately and intensely. However this may be because of unconscious provocation from the woman, who - never having experienced peace and calm in her early life - recreates the atmosphere of tension through criticism or angry moods.

Men with this aspect tend to have a short fuse, and often go about in an irritated state of mind. By identifying early childhood patterns of tension it may be possible to combat these negative emotional anger-states, which can be the source of a great deal of internal pain. Expression of anger rarely solves anything. It does not pay to let anger out, as you may fondly imagine. It pays to be conscious of the reasons for anger, before it arises.

As you mature and you gain insight into your emotional nature, you can learn to create an atmosphere of excitement around you. You will be inspiring to be with, and moreover, you learn to combat insecurity by giving freedom of movement and encouraging independence in those you are attached to.

Moon Trine Uranus

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

Because there is a good aspect between these two planets, you can expect the positive consequences to be strong and very creative, and the negative consequences minimal.

PROFESSIONAL - EMOTIONS: Unpredictability

You are something of a gipsy, and this means you can adjust to extremely unusual professional environments. You would thrive in a job in a foreign country for example - the more exotic the better. You are well-suited to working with people who are alienated from society in some way, especially if they come from a different culture. On the other hand you function very badly in a conventional place of work, where the same functions have to be performed day in, day out. You have a very low threshold for boredom, so you are suited to a job which brings exciting changes and variation during the course of the day - preferably meeting people. You have an advanced intuition and very sensitive antenna - this may give you some talents in the New Age sphere.

PERSONAL - EMOTIONS: Unpredictability

You do not have conventional desires as far as domestic harmony is concerned. In your childhood there were many unsettling influences and a general atmosphere of unpredictability, excitement or stress. You need to feel that something is

happening around you. This means that you can get very restless in relationships, and if you feel bored - and you often do - then you start getting provocative. You are best suited to relationships which keep you occupied with new daily challenges - and you have a strong need to express your emotional energy in group scenarios. Your partner will not be able to satisfy your need for stimulation on his or her own. You thrive in unusual domestic relationships - for example communal living, flat-sharing or residence abroad. For partnership to function satisfactorily it is essential that you stop distancing yourself emotionally - this gives the impression that you do not care for your loved one.

EMOTIONS - EMOTIONS: Unpredictability

Extraordinary circumstances regarding your relationship to your family - particularly your mother - and your general upbringing, have evoked a very detached emotional attitude in you. In all probability your relationship to your mother was characterised by a sense of equality or of friendship, rather than traditional patterns of dependence. From one point of view you were never allowed to feel a natural dependence and you protected yourself by developing detachment, but from another point of view you rejected your mother whenever she tried to assume the traditional maternal role. There may also have been an element of unpredictability about your mother's behaviour - a situation in which you never quite knew what she was going to do next. Later in life you display this inherited tendency to detach yourself when encountering emotional challenges. You send the unconscious message that you are quite prepared to leave if there is going to be too much trouble, and that you can handle your own freedom. Of course you can, but this means that you end up in half-relationships in which you are neither living with, nor quite living without the partner. When you discover that your love of freedom and independence is partly a device to protect you from getting hurt emotionally, you learn to express feelings of commitment with greater warmth, and this in turn creates more security for the partner, who will reciprocate by showing greater commitment.

Moon Trine Neptune

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

Please bear in mind that the contact between these planets is harmonious, which means that you will rarely be troubled by their negative influences. They represent a resource you can draw from.

PROFESSIONAL - EMOTIONS: Develop intuitive sensitivity

You are a supremely sensitive and impressionable person, and this will express itself as a moodiness and indefinable dissatisfaction. Yet you will almost certainly have creative and caring sides to your nature which can stand you in good stead professionally, as long as your job is not monotonous or meaningless. You have a capacity for being very sympathetic and understanding, and this may be a part of your work. You have spiritual talents - perhaps you can work with dreams or the unconscious in some way. You are powerfully influenced by your environment, and including the mood of the people around you. It is wise to choose environments free from pollution, spiritually, emotionally and physically.

PERSONAL - EMOTIONS: Develop intuitive sensitivity

The greatest challenge for you is to attain emotional satisfaction, and this is best done by understanding the nature of your childhood. It is essentially for you to avoid the tempting pleasure of indulging your emotions and sentimentality. You so easily fall

into negative emotional states, and this can make life miserable for the people around you. Your emotional impressionability creates serious problems in partnership matters - you simply have difficulty distinguishing the boundaries between yourself and your loved one. You take on the moods of others or absorb negative vibrations from the environment. The older you get the more you realise that this is just a bad habit, based on early conditioning. Avoid jumping into emotional swamps! Having said this, you have a wonderful talent for tuning in to other people emotionally and understanding them in depth. You are a very sympathetic person.

EMOTIONS - EMOTIONS: Develop intuitive sensitivity

As a child you were profoundly influenced by the mood of your mother. You may feel the bond is close, you may idealise your mother, but there are strong indications that she sucked you in to her negative moods, enlisting your support and care. At worst she may have been something of a martyr, or in bad health, at best she was probably rather sad at times. This evoked guilt feelings in you, and an unconscious need to make things better.

Actually you are born to be concerned and helpful, so your mother could not really help evoking these feelings in you. The essential thing in your life is to realise how profoundly you were influenced by the emotional atmosphere of your childhood. By making conscious use of the creative side of your imagination, you can learn to avoid the old traps and create a positive environment for yourself and those close to you.

Moon Opposition Pluto

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

This aspect shows a strong polarisation in your chart, and difficulty in integrating the principles described. There may be travel and separation in connection with the principles described below.

PROFESSIONAL - EMOTIONS: Deep emotional involvement

You are strongly motivated on an unconscious level by a need for security - a need which is very difficult to fulfil. However when you turn outwards and concern yourself with others, you will discover a special talent for helping other people find security. This may manifest as social consciousness. You also have a talent for dealing with people in crisis, possessing an inborn psychological ability to transform how people feel. You are suited to work which requires a deep personal involvement combined with a certain power and distance. You have the power to investigate deep emotional states in other people, and this can be connected with psychology or the occult.

PERSONAL - EMOTIONS: Deep emotional involvement

You are a person who feels everything very deeply, although people who only know you superficially might not be aware of this. Your need to protect yourself emotionally comes from a number of disturbing childhood experiences which mean that you tend to play it cool in times of crisis. Problems arise in intimate relationships because you never let on how you really feel - if you had the courage to show your vulnerability, people would treat you better. You cling to emotional bonds with great intensity, yet in times of crisis you can suddenly amputate your feelings and become ice-cold. It is unwise to deal with crises by giving ultimata. It is essential to overcome these destructive defence mechanisms, if you want to enjoy warm relationships.

EMOTIONS - EMOTIONS: Deep emotional involvement

You are profoundly marked by traumatic childhood experiences, in which you lost trust in family security. Your bond to your mother is at best complicated, and at worst non-existent. For some reason she was unable to nurture you - perhaps you were removed from

her at some time, perhaps she was unable to breast-feed you, perhaps she was under such psychological pressure herself and did not have the resources to take care of you.

Whatever the reason, you sought to protect yourself from the resulting vulnerability by amputating your emotional bonds so as not to feel pain. Effective though this may have been to ensure your emotional survival as a child, it becomes a deep and unconscious habit which sabotages emotional bonds later in life. It is particularly painful for other people to experience the icy atmosphere you create when you withdraw your feelings. Experiences later in life lead you to transform your drastic emotional survival tactics and in doing so accept greater responsibility for family problems. This transformation evokes a deep psychological understanding of others who also are tormented by extreme emotions.

Mentality

Mercury In Scorpio

PROFESSIONAL - MERCURY: Analysis

Your perspicacious nature and investigative talents can be an advantage in many professional areas. You are a person who can be entrusted with a secret - your lips are sealed. You are also a person who can discover secrets, therefore there is a talent for research and investigation. Your need to pierce to the roots of an issue gives a predisposition for psychological or occult interests. There may also be a talent for working with computers. Your talent for seeing weaknesses in others can help you be of mental support to them if you share your insights. It is important for you to be more open in your dealings with others - otherwise people get the impression you are plotting something. People need to be reassured that your motives are pure.

PERSONAL - MENTALITY: Analysis

You are a deep-thinking and silent type. Superficiality is anathema to you; when you say something, it normally strikes deep and is delivered with considerable intensity. Experiences early in life may have made you somewhat suspicious, inclining you to look for secret motives in others. This can be unnerving for those close to you. You often feel that communication can be achieved through eye-contact alone, and that the great truths are unspoken. Remember that people also use words to make contact, and that everything doesn't have to be deeply meaningful. Scientific studies show that 55% of all communication is through body language - a fact that you have been instinctively aware of most of your life, having observed the way people react under your gaze.

Mercury In 7th House

PROFESSIONAL - MENTALITY: Listening

Your chief asset in your professional life is your ability to establish contact with other people and communicate with them. You are simply curious about the minds of other people and interested in their thoughts and how they function. Professionally you are suited to a position where you have daily contact with people, where you can field their ideas and express yours. You are an asset as a business partner because you are responsive to the ideas of others and generally quite willing to listen. You are in your element when travelling and visiting people, or establishing contact by phone or on computer networks. You need to talk to people in your working life, and you work better in a team than alone.

PERSONAL - MENTALITY: Listening

The single most important element in a partnership for you is communication. Erotic attraction and material comforts may have

their appeal, but above all you need to feel mentally stimulated. The pleasures of love come through sharing ideas and thoughts; the pains when you feel ignored or misunderstood. You tend to choose partners who you respect for their intelligence and, other things being equal, you are attracted by a youthful quality in the partner. You like to go places and have fun. Perhaps you are too dependent on your partner for providing the intellectual input in the relationship, and a partnership is benefited when you also seek mental diversity through meeting other people. This removes the burden of communication from the partner.

Mercury Sextile Venus

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

PROFESSIONAL - MENTALITY: Affability

You are a very versatile person, combining good judgement with taste and the ability to convey information in a pleasant manner. Success comes when you work with communication in one form or another. You may excel in the arts or in public speaking. You bring a human element into your professional dealings, and advancement will often come through the goodwill of others. Your mild manner and diplomatic nature leaves a good impression on others. You would function well in a position with lots of contact with people, for example dealing with personnel. You are very concerned about justice and make a strong effort to see both sides of any issues. You can secure agreement because you are willing to listen to others, and you are careful not to alienate people with impulsive remarks. Obviously with these talents you will prefer a harmonious professional environment to one in which there was too much trouble or competition.

PERSONAL - MENTALITY: Affability

You have a gentle and sensitive nature, and strive to maintain harmony in your personal relationships, going a long way to meet the needs or demands of another, before you allow yourself to feel provoked. In love relationships communication is the single most important factor. This may stem from a very close relationship to a brother or sister when you were a child. Even now, you probably cultivate a brotherly or sisterly manner in your relationships, where games and the element of play have an important role. As mental stimulation is so important for you, you can get bored with your partner, and for some people this may mean a tendency to become romantically involved on the side, though there is rarely any malice involved, should this be the case. Erotic desire is hardly a motivating factor for you, but you do have a tendency to flirt, and this can make your life more complicated than you would wish.

Mercury Opposition Jupiter

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances. As these two planets are on opposite sides of your horoscope they indicate that you are split between two quite different drives. As a result you tend to imagine other people with the negative qualities described.

PROFESSIONAL - MENTALITY: Disseminating information
One of your great professional assets is your intellectual curiosity and interest in communication and information. You can be something of a perpetual student, accumulating knowledge and insight for a rainy day. These intellectual talents bring you success in fields which require study, writing, meeting people, travel and generally exchanging ideas. You have excellent teaching talents, because you both have the capacity to concentrate on details, and at the same time can draw wide-ranging conclusions. You can maintain an overall perspective, even when drowned in facts and figures. You can also be extremely persuasive, and this can give a talent for sales. People can come to you for advice and information. You are also suited to a position in an office, where you have access to phones and faxes, computers etc. You may be rather restless, so you need to work in a position in which you work with a whole spectrum of daily tasks, or in a situation in which you meet a variety of different people, perhaps whilst travelling around.

PERSONAL - MENTALITY: Disseminating information
Gaining intelligence is a strong motivating factor in your life. Attending courses and studies, learning languages, travelling and meeting people, are all important activities for you, because they give you the opportunity to train and expand your mind. A foreign language may play an important role in your life - you certainly have the capacity to master more than one language. You can be witty and a mine of information. On the other hand you may feel a strong need to impose your ideas and opinions on others. You hate to be belittled mentally, and you may compensate for this by becoming argumentative, or by dutifully trying to enlighten people about what the truth is. It is better to fulfil this need in some job for which you get paid - rather than tire your partner with your constant need to explain and inform. It is wisest to give your opinion only when it is consciously sought by others.

THE MIND - MENTALITY: Disseminating information
Brothers or sisters may have played a powerful role in your mental development as a child. Perhaps you felt unintelligent in contrast to a sibling - or there may still linger in you a sense of injustice as regards how much attention a brother or sister received in contrast to yourself. Contact with teachers and other children at school will also have been very formative, inspiring you to do your utmost to compete mentally.

Whatever the circumstances you do not like being ignored. There is a deep need to make your opinions heard, so you have a tendency now to be rather voluble. If you are not careful, your forceful opinions can have the opposite effect to what you desire. You need to be heard and understood, and you need to communicate your own perceptions about fairness and justice. However, unless you cultivate a sensitivity to mental response, you will never get the message across. Ask yourself: are you getting the results you want from your communication? Perhaps what you consider important, is not so important to others. Choose your audience carefully, and ensure that you get feedback.

Mercury Opposition Saturn

This aspect is of medium strength and its influence will often be felt, though not acutely.

This aspect shows a strong polarisation in your chart, and difficulty in integrating the principles described. There may be travel and separation in connection with the principles described below.

PROFESSIONAL - MENTALITY: Mental discipline
You have a logical and disciplined mind, and special skills as regards working out systems and performing tasks which require patience for long periods of time. You prefer to stick to rules and

established methods, but you can apply your mind to any task in a very conscientious way, if required. You may be rather suspicious in allowing the imagination to have too much influence - you are the kind of person who reads instructions carefully and follows them. This can make you a little inflexible as regards integrating new methods. Furthermore your admirable attention to detail can hinder you in getting an overall perspective on things. In the first phase of your professional life you can be afflicted by a sense of mental inferiority, so it is important for you to spend time on further education in a constant process of acquiring new skills.

PERSONAL - MENTALITY: Mental discipline

You are oversensitive about your intelligence and have a tendency to work twice as hard to prove to yourself and to others that you can meet intellectual demands. As you put so much effort into improving your mind, you can become quite an expert in your chosen field. However in personal relationships you can become very defensive when you are misunderstood, and in situations when you try to understand another person, a mental block can descend because you invest too much self-conscious effort in the process. Relationships would benefit dramatically if you were more relaxed in this respect. You are reluctant to admit it when you do not understand, and this can lead to an escalating situation of misunderstandings. You are also rather a stickler for detail and can be frustratingly pedantic, and your formal style tends to stand in the way of mental spontaneity. Many of the problems around communication improve after the age of 30, as you learn that communication is not a competition but rather a two-way process in which understanding brings mutual benefit.

THE MIND - MENTALITY: Mental discipline

You have probably experienced a number of episodes which undermined your mental confidence as a child. This can be connected with siblings who you felt performed better at school than you did, or experiences at school connected with teachers or pupils in which you felt mentally exposed or ridiculed in some way. Whatever the cause the fear of not being able to grasp facts can be a mental block which acts as a barrier in communication. Trying too hard to understand can prevent you from learning. Some people with this aspect panic when mental demands are made on them, others develop amazing mental self-discipline and determination to make progress with their education. Sometimes further education is interrupted because of a lack of faith in the outcome, and if this is the case, you may find yourself taking up education again well into your thirties. There is however a danger of gathering information and learning facts and figures for their own sake. Too much concentration on details hinders you from seeing the wood for the trees. A point comes when it is important to abandon theory and put learning into practice. When you overcome your lack of mental confidence you can become a model of clarity and mental efficiency.

Mercury Semisquare Neptune

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

You can expect this influence to be hidden and sporadic in its effect - which is negative, especially as concerned social issues, and issues of self-worth.

PROFESSIONAL - MENTALITY: Clarify your thoughts

You have a very refined mental sensitivity which may be expressed through some form of imaginative and creative work. You possess a wonderful intuition, but formal learning and dry facts do not interest you. You can be quite a perfectionist and are very good at spotting mistakes and errors. In your dealings with

others, you are very good at tuning in to their ideas, and you will go very far - perhaps too far - to avoid confrontation and argument. You tend to hope difficulties will disappear if you ignore them, and you have a tendency to create a smokescreen around issues. Thus you like to get your own way through being indirect and confusing the opposition. However if you do not make an effort to stick to ethical principles and honest representations, you may find yourself getting ensnared by the stories you create. You have a talent for creative communication - as a writer, in advertising or the media, or as a general part of your work.

PERSONAL - MENTALITY: Clarify your thoughts

In intimate relationships you are very attuned to what your partner is thinking. You are a mind-reader, and as such you often feel you know what another person will say before it is said. Whilst this is often the case, problems can arise because of a tendency to adjust what you say to conform to the other person's supposed expectations, and to hide thoughts and ideas which you think will not be received well. If this habit goes on for too long, you may find that you start living in another world - isolated and misunderstood. Effort must be made to improve communication and to say what is really on your mind. You are oversensitive to environmental stimuli - particularly noise - and partners may feel you overreact or are over-critical in this area. However you do need to be in a peaceful environment to function well.

THE MIND - MENTALITY: Clarify your thoughts

It is quite likely that you experienced many troubles in the early part of your life connect with truth and lies. Your home environment was probably deeply affected by the tendency to fudge issues and avoid discussion. You have a fantastic imagination, and whilst this is truly a fine talent, you do tend to embroider the truth and this may not have been appreciated by your family. What is more, you learned as a child that it did not pay to speak directly - for one reason or another - and you may have preferred the inner world of your imagination to the outer world of reality. You are an excellent liar when pushed into a corner - and this is partly because you simply wish to avoid unpleasantness. It is essential for you to rise above the dangers of dishonesty by embracing strict standards. Should you fail to do this, you will be sucked into a spiral of fabrications which directly threaten your sense of reality. By striving for mental purity you can use your extraordinary talents. These can range from poetic imagination to clairvoyant abilities.

Mercury Square Pluto

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

As there is tension between these two planetary influences in your chart, it will be very difficult for you to achieve the promised beneficial results before the age of 30.

PROFESSIONAL - MENTALITY: From secrecy to openness

You have an investigative mind and considerable talent for finding out about hidden issues and analysing things in depth. You are also good at keeping secrets. As such you are a natural detective and are able to find the root cause of problems. This is a useful talent in psychological matters, when working with computers or anything requiring fanatical attention to detail. There is an ability to tap hidden sources of information. In your professional life, however, you are inclined to be suspicious, fearing that important information is being kept from you. People can feel that you interrogate them, and they tend to clam up. Sometimes you express yourself far too forcefully and do not allow people to come with their views. Success comes when you overcome communication problems connected with anxiety.

PERSONAL - MENTALITY: From secrecy to openness

You are a rather secretive person; you think hard and deeply, and sometimes you are plagued by compulsive ideas and fears. Much of this is a result of childhood anxiety connected with lies, secrets or lack of communication. Because you do not always let on what you are thinking, you can easily be misunderstood. Put people's minds at rest by clearing up these misunderstandings and strive to be as open as circumstances permit. When your feelings are hurt you can be silent for long periods. And when you are insecure, you tend to be suspicious of your partner. Harmony in relationships comes when you resist the tendency to argue for hours at a time, or to use silence as a weapon, and instead learn to be open and trusting.

THE MIND - MENTALITY: From secrecy to openness

As a child you were deeply affected by secretive behaviour on the part of parents or siblings. You had a strong intuition that important facts were kept secret from you - you may indeed have been lied to in connection with some profound truth. Later in life you may well have discovered the details of what has been kept from you - this can for example have something to do with secret connections your parents had - for example half-brothers or sisters you never knew about. There is a strong possibility that a family member was extremely non-communicative or silent in a rather disturbing manner. Perhaps you too felt that it was difficult to make your voice heard.

Whatever the actual circumstances, the result of this is a gnawing doubt concerning the truth of what you hear, so that you are often driven to deeply question the motives or actions of others. Sometimes your tendency to cross-examine will drive a partner behind a protective wall of silence for long periods of time; sometimes you too will clam up as a way of applying pressure in a relationship.

As you overcome these difficulties you learn to relax more in communication matters. By giving people the time and space to respond to your questions without anxiety, and by allowing people to have their secrets if they so wish, you can attain peace of mind. Ultimately your life will be enriched by the discovery of quite unique mental abilities on a deep psychological level.

Mercury Sextile MC

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

The sextile aspect is favourable, and stimulates your capacity to learn from experience. You can expect the negative effects to be minimal.

PROFESSIONAL - GOALS: The ideas person

It is important for you to integrate your mental faculties in your career. Teaching, dealing with communication, writing, meeting people and generally creating contacts are all part of the employment spectrum for you. An inner restlessness will ensure that you either seek a career with a variety of interesting functions, or change jobs at regular intervals. The important thing for you is to get your ideas across in society.

PERSONAL - GOALS: The ideas person

You like to have your finger in a number of pies, and although this can be manifested as versatility, you have a tendency to be easily distracted from your personal goals. Changes of views and a restless nature may mean that you move often. A stimulating atmosphere - both at home and in your work - is a prerequisite for personal satisfaction. Children, chatting and play can keep you happy all day.

Values**Venus In Virgo****PROFESSIONAL - VALUES: Love of order**

There is a strong perfectionism and love of detail. You are a conscientious person, and may often find that you can use your talents for organisation in jobs which demand both aesthetic talent and organisational sense. There may be secretarial talents, and you will find most satisfaction when you can be of help to other people. You are the person who ensures that things function comfortably in your working environment. You cannot rest until you have got things just right, and you need a job that utilises your helpfulness and attention to detail. Generally speaking you are conscientious and hard-working, and coupled with your desire to be of service to others, this can mean that you may be taken advantage of - so it is important for you to set limits concerning how much you are prepared to do for others.

PERSONAL - VALUES: Love of order

Women with this position like to show their love through performing simple everyday tasks in the relationship. This can mean they end up doing all the cleaning and cooking however. You have difficulty tolerating disorder and mess, but you must go easy on your partner as regards housework, otherwise disharmony can arise. Even though there is a certain sensuality, there is a tendency to be both self-critical, and critical of the partner. If you are a man, you will have practical tastes in love, perhaps being attracted to a conscientious and rather chaste woman who is prepared to help you along in life. Cleanliness and order are important values when choosing a partner. It is important to learn the art of constructive and supportive criticism. It also pays for you to be more accepting of the supposed flaws in the person you love.

Venus In 6th House**PROFESSIONAL - VALUES: Loving care**

Harmony in your working environment is important for you. Where there is no harmony you can create it. One particular area where this can be put to good use is in dealing with personnel. You function best in aesthetic surroundings - and may work creating them, although you are more suited to working with people than with things. However you do have an appreciation for objects of beauty, and you could work with them in some way or another. Quality of life at work is most important, and career success involves being able to influence other people with your values in this area. You will be valued by co-workers for the atmosphere of calm around you.

PERSONAL - VALUES: Loving care

You get a great deal of personal satisfaction through being of service to those you care for. Every act of help you perform is also an act of devotion or affection - you are a very caring person. You bring a loving and aesthetic quality into your daily life and hope in this manner to earn appreciation and affection. Being helpful, however, may not be the most effective way of winning your partners love - you may find yourself spending too much time on daily tasks, or loved ones may simply demand more and more, without you feeling more appreciated. It is also important to take time off to enjoy the results of your labours. If you are fortunate you will be loved for what you do, but you risk assuming an inferior role in partnership, unless you also insist on being loved for who you are.

Venus Semisextile Mars

This aspect is of medium strength and its influence will often be felt, though not acutely.

You might expect the connection between these two planets to have a weak positive effect, though it is rather subtle in influence.

PROFESSIONAL - VALUES: Enjoyment

You have a dynamic creativity, but how you use it depends greatly on the nature of the aspect. Harmonious contacts between Venus and Mars give an exciting and winning nature, and the ability to work creatively with both sexes in whatever field you may be in. Inharmonious aspects also give considerable creative power, but conflict regarding sexual roles can sabotage success in one way or another. There is a strong erotic element in your character, and this can lead to sexual involvements which distract you from your business. Men with these aspects tend to be more active in their sexual pursuits, women often feel they are on the receiving end. It all depends on the unconscious signals that you send, as you have a natural sex-appeal. If all goes well you can emanate warmth and congeniality which brings professional popularity. This can lead you to success in many fields, especially those in which physical strength is combined with grace in some form. You would also work well in public relations, and in dealing with children. Entertainment and having a good time can be very important for you in your work.

PERSONAL - VALUES: Enjoyment

As Mars and Venus are the male and female archetypes, this combination brings a powerful need to resolve the dilemma between the sexes. Harmonious aspects show greater ease in this matter, but inharmonious contacts and the conjunction bring extremely difficult challenges. Often confusion about the sexual role stems from the impression given by the parents concerning their love-life, particularly if infidelity was involved. Women with this aspect often experience a strong contrast between the demands of femininity and those of sexuality, and in extreme cases the man is perceived as being a primitive only interested in sexual satisfaction. Actually the woman sends strong sexual signals but gets confused about the response she receives, not knowing whether to take the initiative, (ladies don't do that), or be passive. The paradox is that women with this aspect have strong masculine traits, and can resent the man taking the initiative. Men with this aspect will sometimes have rather feminine traits, and have difficulty taking the initiative.

Whatever the circumstances, the erotic life plays an important role in the character, and there is a strong tendency towards sexual involvements which can be a threat to stable relationships. There is in both sexes a difficulty in integrating the loving nature with passion and desire - when to be tender and affectionate, when to go your own way? When to be attached, when to be detached? When to be chaste, when to let the body take over? When a balance is found, then there is great potential to have enjoyable relationships on both the physical and spiritual level.

Venus Trine Jupiter

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

Because there is a good aspect between these two planets, you can expect the positive consequences to be strong and very creative, and the negative consequences minimal.

PROFESSIONAL - VALUES: Fortune

You have excellent aesthetic judgement, and strong personal values and convictions. You are suited to any profession which can make use of your ability to evaluate and compare - especially if this is connected to cultural or artistic projects. You also have a great ability to impress others with your charm and insight. You would be wasted in a job which did not allow you the opportunity to meet and influence people. You can deal with cultural issues or artistic objects, you can travel in your career, you have diplomatic talent, you have a great sense of style. Success often comes easily for you, and you may thrive in the company of women, and have their professional support. Normally you are lucky, and a great deal of money can flow through your hands. How fast it flows is another question altogether. Your warm personality and optimistic view of the future are your greatest assets.

PERSONAL - VALUES: Fortune

You are an extremely loving and romantic person, and this brings both benefits and problems. Often you fall in love with love, and have difficulty settling into stable relationships because of your hunger for romance and emotional stimulation. You are however a great lover, and your attention makes your loved one blossom. There is a tendency to be attracted to a person who comes from a different culture or country - perhaps this is because of a need to widen your emotional horizons. There is a tendency to marry upwards in society. The most important value for you in a relationship is intellectual or cultural stimulation. You need to be able to respect your partner for his or her intelligence. A woman with this aspect has a great need for attention and appreciation, and particularly values the mental stimulation the partner can give. A man with this aspect has a great appetite for the opposite sex, and whilst intelligence is important, there is often a taste for exotic or good-looking women. Faithfulness may not be a strong point, though sooner or later there will be a tendency to tighten up moral values regarding love.

LOVE - VALUES: Fortune

The issue of love or romance plays a dominant role in your life. Early intimacy with a sister, or a strong awareness of your parent's love relationship may be the foundation on which you build romantic expectations. Perhaps your mother was the romantic type, widely travelled or with pronounced cultural or artistic interests. If so, she may have expressed exaggerated views connected with love and relationships, inspiring in you a longing to indulge a cornucopia of romantic desires. Whatever these early influences were, you may find later relationship experiences not quite living up to your inflated expectations. It is important to be realistic, as romance and glamour last only a short time. Intellectual growth and mutual stimulation through shared interests or travel can however bring lasting pleasures. You can bring tremendous warmth and passion to a relationship, and you are probably a very giving person - but it would be wise to remember that your partner probably does not have this same capacity to express love. Spiritual or religious values may play an important role later in your life.

Venus Trine Saturn

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

Please bear in mind that the contact between these planets is harmonious, which means that you will rarely be troubled by their negative influences. They represent a resource you can draw from.

PROFESSIONAL - VALUES: Formality

You have a strong sense of responsibility regarding your professional relationships, and you value trust and stability most of all. You can therefore function well in long-term business partnerships, and you are especially good at relating to the public in a friendly, though formal manner. You have a pleasing diplomatic nature and a fine sense of protocol. Job security and a strong economy are important to you, and other things being equal you are very careful with money. This may give talents connected with the financial world, banking, investment etc. Women with this aspect can be especially ambitious and willing to endure considerable hardship to get on in a career. In general there is more emphasis on the professional life than on the personal. As time goes by you grow to learn exactly what you are worth, and expect to get paid for it.

PERSONAL - VALUES: Formality

It is unlikely that you will be completely fulfilled in your love relationships during the first 30 years of your life. You may have a rather low sense of self-worth and a correspondingly low threshold of expectation as far as romance is concerned. You prefer to play it safe, having burned your fingers in your young days. You may be attracted to an older partner, who can provide structure and security in a relationship, although security of this kind can prove restrictive in the long run. Intimacy does not come easily to you because of a strong fear of rejection. You maintain a cool facade as a protective measure, though this only makes your world a little colder. As you get older you learn that it pays to be a little more vulnerable, it pays to take a risk with your emotions. First you need to build up a strong sense of personal self-worth. Then by showing your own feelings without demanding exaggerated demonstrations of love in return, you can create a safe space for the mutual exchange of love.

LOVE - VALUES: Formality

Early in your life you experienced love as conditional on your behaviour. Love was measured out to you on a basis of whether you deserved it or not - thus you now often feel undeserving. Perhaps you felt that there was little love between your parents, perhaps you had an older sister who made life difficult, and very probably around the age of 15 you may have had an unhappy love affair which ended painfully. As a result you became very cautious about expressing your feelings. You may choose a relationship with someone you can be sure of, but do not love, to avoid being hurt again. Or you may miss romantic opportunities because you wait too long not daring to show your feelings.

When you do fall in love you become initially very open and vulnerable and extremely hungry for demonstrations of affection. Immature romantic demands can lead to rejection because no individual can satisfy your deep hunger for love. However if you feel rejected you react by becoming cold and remote, thus creating even more distance between you and your loved one. Men with this pattern have difficulty showing their feelings, though they may be quite effective at making formal romantic gestures. This emotional restraint evokes the feeling in the female partner that she is not loved, and as time goes by she will feel unattractive and wilt like a plant without water. Women with this aspect have

difficulty believing that they are attractive, no matter how good-looking they may be. Fear of rejection prevents them from giving a spontaneous display of emotion.

These relationship difficulties can be solved by patient work over a period of time. By lowering expectations, by giving instead of demanding, by resolutely refusing to blame the partner for personal unhappiness, by commitment and loyalty, you can develop a relationship which ultimately becomes warm and fruitful, especially in the latter part of life.

Venus Square Uranus

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart.

There will be great difficulty in integrating these two planetary influences, and the promised harmonious results will only arise after you have expended time and effort.

PROFESSIONAL - VALUES: Untraditional relationships

You need to work in an exciting environment where you are together with people who have untraditional ideas, or who come from unusual cultures or backgrounds. You function best when you meet a number of different people during the course of your working day - preferably interesting or unconventional types. You have a talent for working with the media - you may also function well in a job which brings travel to exotic places. As you have a strong interest in consciousness-raising groups you may get involved with political, spiritual or social movements. You function well in a team - but not in a conventional working environment where you meet the same people all the time. You need to feel as free as a bird. You have a talent for making friendships - you make an electric impression on others, but actually you are rather detached yourself.

PERSONAL - VALUES: Untraditional relationships

The major characteristic of your love-life is your need for excitement and the unpredictable, coupled with a restlessness which you feel when relationships do not offer you the opportunity for personal development. You have a tendency to form relationships to people from foreign countries, different cultures or unusual environments - in other words with a person who can bring an element of the exotic into your life. Often you can find yourself in a situation, in which you choose not to actually live together with a partner. Preferring to keep your independence - especially as regards the freedom to have your own friends - you maintain the excitement of romance by periodic meetings where you can constantly have your need for excitement fulfilled. In extreme cases you experience "airport-love" - short but exciting relationships with someone from another area of the world. In this way you avoid committing yourself emotionally. If you want a more permanent or stable relationship, or if you would like to feel more secure with your loved-one, it is essential to make a deeper emotional commitment.

LOVE - VALUES: Untraditional relationships

You have a rather original attitude to relationships which probably comes from early experiences of the relationship between your parents, or perhaps an unusual connection with a sister, or an unconventional bond to another female. The upbringing may be characterised by mixed messages as regards your own sexual identity - daughters perhaps encouraged to develop a masculine style and sons a feminine. Your parents' love-life may have been characterised by sudden separations; at least something in your upbringing has evoked a tendency in you to be very detached and rather cool in the expression of love. You instinctively anticipate a sudden break of emotional bonds, and learn at an early age to go

your own way.

Later in life this inability to commit yourself fully to an emotional bond creates distance in your love-life. You send the unconscious message that you can do without the partner, and this in itself can lead to the sudden separation you inwardly are trying to avoid. If a potential partner does not experience commitment from you, he or she will go elsewhere. Your romantic signals also attract people who have no intention of committing themselves and imagine they can have an "enlightened" (non-committed) relationship to you. By cultivating exciting social bonds to interesting people, you can satisfy the need for stimulation which one relationship cannot provide by itself. It is not your fate to be bound by traditional concepts of marriage - you can show by personal example the many alternatives that exist to conventional relationships.

Venus Semisextile Pluto

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart. These two planets influence each other only mildly, though they may have a beneficial affect on either economic or spiritual concerns.

PROFESSIONAL - VALUES: Transformation of values

You have the ability to awaken deep sympathy in the hearts of other people, and you are probably willing to go to great lengths to be appreciated. Your attention to others can evoke a very positive atmosphere and genuine good feelings, if you learn to avoid a few simple weaknesses. You tend to go too far in pleasing others and trying to create a good impression. In this way you can monopolise some people and alienate those who are not impressed by your apparent charm. Businesswise you have a special talent for getting the most out of resources. You can see the value in items other people might throw away, and can turn waste into something valuable. Financially you must avoid the trap of getting into debt by buying prestige items. Do not throw good money after bad. Above all avoid becoming economically dependent on others - you could end up being manipulated.

PERSONAL - VALUES: Transformation of values

Your intimate relationships are characterised by their intensity. You are simply not interested in a superficial or casual relationship. You have a tendency to invest a lot of energy into winning love and attention and this is actually a throwback to childhood experiences which equated love with survival. You will often feel that it is fate that has brought you and your partner together, and that nothing will break the bond that has been established. Unfortunately, an unconscious fear of losing love can result in many exhausting emotional scenes. Relationships can lurch from crisis to crisis. When these negative influences have been transformed you will discover a real talent for giving loving support to others.

LOVE - VALUES: Transformation of values

At a very early age, love for you was equated with survival. Your relationship with both your mother, and possibly with a sister, was deeply complicated in this respect. A very real anxiety about losing love - and therefore parental life-support - has led you to develop an oversweet nature calculated to win affection. You invest your charm 200% in achieving this goal, and are normally successful. Problems arise later on in your life because in the long run this investment of emotional energy is exhausting for all parties. It is very difficult for you to be consciously aware of what you do. Anxiety about losing love leads to intense love relationships, where jealousy plays an unspoken role - partly because you feel you have to be so intimate with everyone. In some cases you may subordinate yourself to your loved one and be misused, yet,

paradoxically, it may be you who wields the power later on. It is a great relief for you later in life, when you realise that relationships function better when you relax. People like you more when you don't try so hard to please. You have so much love to give, why worry about how much love you get? And if some people don't like you, so what? - you know about the power of love.

Venus Trine MC

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

Please bear in mind that the contact between these planets is harmonious, which means that you will rarely be troubled by their negative influences. They represent a resource you can draw from.

PROFESSIONAL - GOALS: Manifest beauty

You have a talent for expressing your 'sthetic judgement and sense of beauty in your career. Your charming personality enables you to deal equally well with both people as material assets, and you achieve success through the goodwill of others. You hope that success will come to you the easy way, and if you are lucky it will. However you tend to wallow in sensory pleasures, and may be inclined to flaunt your material advantages through conspicuous consumption.

PERSONAL - GOALS: Manifest beauty

You are motivated to maintain a comfortable life-style, and generally have a fine artistic judgement - both as regards how to maintain the home, and how to pursue your career with style. At worst you are inclined to a sumptuousness and conspicuous consumption which borders on bad taste, at best you know how to create a harmonious and peaceful environment.

Mars Trine Uranus

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

Please bear in mind that the contact between these planets is harmonious, which means that you will rarely be troubled by their negative influences. They represent a resource you can draw from.

PROFESSIONAL - DRIVE: Experimentation

You are an extremely dynamic person and you can perform tasks

in a flurry of activity in half the time ordinary mortals take. You need excitement and originality in your work, and you do your best work when a deadline is threatening. When you decide to act, you strike like lightning. However you are best at working in short bursts of energy. Longer periods of activity tire and bore you. You have talent for working with technical matters - for example engineering, computers etc. You may also have a taste for more untraditional work, perhaps connected with New Age fields, consciousness-raising etc. The essential ingredient is freedom to experiment and learn from your own experiences. You are not very good at working in a team because you can react violently to being told what to do. You hate restrictions and orders and you need to go your own way. Other people may experience you as rebellious and you have a tendency to get into trouble with authorities. You are something of a pioneer, and may embark on dangerous travels to foreign lands.

PERSONAL - DRIVE: Experimentation

You are an extremely unpredictable person, and your fear of being limited by relationships makes you demonstratively aggressive when duty is required of you. Men with this aspect give their partner the impression that they can pack their bag and go at any time - in actual fact unpredictability is used as a threat to get their own way. Women with this aspect are attracted to unusual men, particularly from abroad or from some unique environment, - men who can promise excitement and freedom. There is a tendency to be enormously provocative and this can lead to explosive conflicts. This satisfies the ever-present craving for excitement in one way or another. To have peace in a relationship it is important to have some unusual interest or job which brings challenge and fulfilment. A relationship will not provide this in any lasting way. If all goes well you are an exciting person to be with, always willing to take a risk or try something new.

SEX & POWER - DRIVE: Experimentation

An untraditional father or brother will have evoked strong ideals of independence and freedom in you. You long for the open horizon and the unpredictable. This may relate to an atmosphere of tension in your home, where you felt - and feared - sudden changes or threats from males. The atmosphere was overcharged in some way. Actually you are born with an innate need to manifest your will in a dramatic way, and it will have been very difficult for your parents to control you. You will have experienced discipline as an unjust attack on your personal integrity, and this makes you even more provocative. With this attitude you will come into a spiral of conflict with authority. You don't want to learn from their experience, you want to learn from your own. If you can understand these rather hidden provocation patterns, you can learn to get on with others, even though you do go your own way. You do not have to be such an outsider.

In sexual matters you also have a taste for excitement. Not for you every Saturday when the children are in bed - unless there is an element of unpredictability you can quickly lose interest. Although sex manuals talk of the need for a long period of foreplay, this can actually be tedious for you - with your strong sexual magnetism, why wait?. There may be an interests in advanced sexual techniques and instruments of pleasure. Periods without sex create a strong sexual tension, and there is a tendency for the male to have premature orgasm because of a high level of expectation. Sex for you needs to be a surprise, and it can take place anywhere. The people who established the 5 mile high club probably had Mars/Uranus aspects. In some cases there may be early experiences of danger or the tabu connected with sex, which means you have to recreate a situation of tension to experience release through orgasm. In extreme cases women who have this aspect may be very provocative prior to love-making.

Mars Conjunction Neptune

This aspect is of medium strength and its influence will often be felt, though not acutely.

Two energies are unified into one in this planetary aspect, and you will express this energy in a very personal way, for good or ill depending on other factors in your chart.

PROFESSIONAL - DRIVE: Refine your desires

Learning to be motivated and being able to define what you really want to do is one of the greatest challenges for you. You have many talents, especially on the creative side, and these can express themselves in advertising and marketing, matters concerning body energies (for example healing and massage), and many other areas - including social care. Paradoxically you have high ideals, yet may get involved in ethically questionable ventures. You can be driven by a nagging dissatisfaction connected with the meaning of what you are doing, and you thrive best when you work creatively or for a cause which transcends material interests. Doing something you believe in is what motivates you. You have strong socialist impulses.

There is an extraordinarily repetitive theme about being cheated which can affect your working conditions. You will experience on occasions that people go behind your back or over your head - seemingly without any explanation. This is connected with your perfectionism and a tendency to express dissatisfaction. People hide things from you partially to avoid experiencing your disappointment. If you analyse your own behaviour you will discover that you also have a tendency to hide things from others! By being honest and accepting apparent imperfections, you can avoid unpleasant repetition of these happenings. It is also important for you to speak your mind and take a confrontation when it arises, to clear the air.

PERSONAL - DRIVE: Refine your desires

There is no doubt that moral issues are a big challenge for you in your life. Early experiences may have inclined you to be wary of acting spontaneously and openly, and this can give rise to great misunderstandings and often deceit in relationships. Women with this aspect will often find themselves getting attracted to men who disappoint them, perhaps through lying or being unfaithful, or through alcohol misuse. Men have problems regulating their material and sexual appetites.

Women are attracted to creative, artistic or spiritual men, who fulfil their inner need to also develop these qualities. Whilst falling for a sensitive man however, there is paradoxically a fear of weaknesses in the male. An exaggerated focus on these supposed weaknesses and a fear of being lied to by the man actually causes the man to conceal his true desires and needs. This can result - in extreme cases - in a double life. The man with this influence cannot find satisfaction in simple material and sexual gratification, no matter how hard he tries - and he tries hard. Happiness comes when both sexes learn that satisfaction is only to be found in creative or spiritual goals - partnership will not in itself provide it. Dissatisfaction has to be seen as a divine discontent which drives the person to higher achievements.

SEX & POWER - DRIVE: Refine your desires

This influence evokes a feeling of vulnerability and satisfaction in both the man and the woman. In childhood you will have been witness to weakness and despair in either the father or a brother. Your father will probably have initiated you into his fears and disappointments, you may have experienced him in tears, or drunk, or confessing sexual unhappiness. As a result you have developed a genuine concern, but at the same time you wish to avoid getting involved with anyone who exhibits similar failings. You are both repulsed by weakness, and attracted to it, because

on the deepest level you know that it exists within you. Women unconsciously project their fears in this respect on men, and every sign of weakness in the man will activate the anxiety connected with childhood. Everything becomes a test for the man and he is doomed to fail. Often the woman will choose a man who has inherent flaws in his character, but even the man without so many flaws will start to exhibit them. At first, however, there is a tendency to over-idealise the man, refusing to see any weaknesses. As early romantic love fades, weaknesses become apparent, and there is a feeling that the man has changed character, although of course he has just reverted to being himself.

The battleground for men is in the fulfilment of desires. Often there is a weakness for alcohol or drugs and sexual escapades - it is as if one is striving to be seduced by life. In the last analysis the test is a spiritual one - ultimately one learns how transient the fulfilment of desire is.

The desire for sexual gratification is powerful, yet in some ways unreachable. There is a strong tendency to be unfaithful, and this is connected with the unrequited dream for sexual satisfaction. Routine sex quickly results in boredom - there is a need for magic, romance, wine and the spirit of seduction.

Women will often experience male partners being unfaithful - in some cases with parallel relationships which continue secretly for many years. There is a subtle reason for this and it can be avoided. First of all there is a tendency to be very considerate on a sexual level, and this can result in having sex, when you do not really want it. This may mean regular sex without the erotic spark. The man will feel that he is not really satisfying the woman and will tend to seek sex elsewhere. The answer to this is of course only to have sex when you really want it, and to ensure the right seductive atmosphere. Erotic fantasies play an important role with this planetary influence, too, so it pays to share them. Unfaithfulness in this case starts with isolation during the actual sex act.

For the man, sexuality can be almost a plague - the search for the ultimate orgasm. Actually the whole point of this influence is to learn to refine sexual impulses. There can be great healing talents and unusual physical abilities - particularly as regards yoga, T'ai Chi, physiotherapy etc. - when this lesson is learned.

Mars Sextile Pluto

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

PROFESSIONAL - DRIVE: Cutting through decay

This influence has a major effect on your career. In your life you are confronted with the issue of power - and powerlessness. You may not be aware of how forceful you are, and therefore you often encounter confrontations and get involved in power battles. Your strength in this area equips you to deal with crisis situations which other people would rather avoid. Thus you can get involved politically or socially, perhaps in trade union activity or in the corridors of power. Although you have a lot of abilities in this respect you may not find great satisfaction in these areas. You have a good deal of psychological talent, and may find fulfilment in helping people in crisis, or people who have adjustment problems. You may have psychic or healing talents.

You work hard and very intensely, often into the late hours, and actually you may have difficulty knowing when to stop. It is important to identify this obsessive quality, otherwise you can drive yourself to collapse. By structuring your working hours, you can avoid exhaustion. Life would be easier for you if you were

more relaxed. You are very sensitive to what you consider the misuse of power - this is connected with humiliating situations connected with will and power in childhood. Later in life you run into similar situations, especially with authoritarian or dominating - even tyrannical - men, and you tend to overreact. This leads to battles of the will which are quite exhausting - even more for others than yourself. These situations are best defused by seeing them in a different light. By clearly showing others the limits you are prepared to accept, and by sticking to them diplomatically, you can win respect and avoid power games. Remember, if your motives are straight, you will attract people who will be straight with you. It is important for you to think positively about others. You are a powerful ally and a dangerous enemy.

PERSONAL - DRIVE: Cutting through decay

You have experienced a number of deep traumas in your childhood through events which may be secret or repressed. This can be linked to the influence of men - particular your father or a brother. Often a stepfather or half-brother plays an important role. Sometimes a sexual theme is involved. You may also have been deeply affected by someone who had a deep psychological problem. In some way your will was totally overridden at some point in your childhood, and you are profoundly affected by the humiliation this incurred. It is also possible that you experienced your father - who was dominating, but weak - being humiliated in some way.

Later on, intimate relationships are characterised by great intensity and power games. There is a need for a strong partner who can stand up and fight his or her own battles. Women with this aspect are profoundly attracted to magnetic and powerful men. Such a relationship develops predictably: where the man initially starts as the dominating figure, the woman begins to discover weaknesses as time goes by, and in doing so loses respect. When the relationship ends, the roles have been reversed and the man often ends up in a humiliating position.

Men put too much focus on sexuality and the need to demonstrate masculinity. Jealousy and control can be dominating, though concealed, factors in love. The relationship tends to be marred by criticism of weaknesses and bitter discussions over influence. Often therapy can solve difficulties connected with the complex psychological projections involved in this kind of relationship. As time goes by you will discover the benefits of your enormous energy resources and latent power. As a result you stop struggling against imagined power misuse, and simply no longer feel threatened. Deep satisfaction comes from discovering psychological and psychic talents.

SEX & POWER - DRIVE: Cutting through decay

Sexual relationships are an important battlefield for you. The man with this aspect will often demand sex several times a day - or alternatively cultivate an incredible sexual control - and strangely enough this is more because of a need to prove something to himself, than because of true desire. There is a kind of mechanical perfection with the sex act, and a deep obsession with sexual desire and taboos. The man's partner will naturally enough find these demands exhausting, and feel that tenderness is lacking. For a woman, the fear of being powerless makes it extremely difficult for her to surrender to the pleasures of sex. This can lead her to take the initiative in sexual matters, yet paradoxically there will be a secret desire to be rendered totally helpless by a masterful lover.

There is a deep need to have a spiritually transforming sexual relationship. This may be possible through some kind of tantric sexual practice, but ultimately happiness in this area is based on a restraint which allows sexual energy to build up over a period of time, and the ability to enjoy passively and surrender.

Mars Conjunction N. Node, Mars Opposition S. Node

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

PROFESSIONAL - DESTINY: Survival of the fittest

You will often find yourself in the midst of the fray in your professional life, with many struggles as regards asserting yourself in groups. Conflict will touch your life in a central way, and no matter what you do you cannot escape the leadership role which puts you in the forefront. You may find yourself involved in a dynamic co-operative venture involving men and a strong element of competition, though achieving harmony or a unified goal may be an elusive quest.

PERSONAL - DESTINY: Survival of the fittest

You can portray the essence of masculinity or dynamism in your nature, probably as a result of hard-won battles at key points in your life. This may mean that you are pushy or aggressive in your social relationships, with little regard for opposition, though you may try to choose a life in which you shun confrontation. Coming to terms with the power of sexuality - its pleasures and obsessive quality - is a major life challenge. Dealing with conflict is also a lifelong dilemma for you, as you are denied the opportunity of indulging your weaknesses, and are forced to seek a position of strength in your dealings with others.

Mars Square MC

This aspect is of medium strength and its influence will often be felt, though not acutely.

There will be great difficulty in integrating these two planetary influences, and the promised harmonious results will only arise after you have expended time and effort.

PROFESSIONAL - GOALS: Warrior

You have the warrior mentality, and tend to go for your goals with irresistible energy and enthusiasm. You will be no stranger to conflict on your way to the top, and this is as much due to your own aggressive attitude as to the behaviour of your superiors. You function best when you are master of your own fate. You are suited to any field which requires courage, action and a pioneering attitude. You thrive on competition.

PERSONAL - GOALS: Warrior

Your upbringing was characterised by tension and struggle, and this has given rise to the conviction that you have to fight to get to the top of the heap. As such you are wilful and combative, and this will affect both your career and your domestic harmony - or lack of it. At home it is better for you to channel your energy into activity rather than irritation. You are a busy person, and you will get on in life.

Wisdom

Jupiter In Taurus Retrograde

Because this planet was retrograde when you were born, you have a special personal lesson to learn in the matters described. Experiences will be evaluated more on an inner than outer level.

PROFESSIONAL - WISDOM: Believe in abundance

Your talent for creating and maintaining growth coupled with your true appreciation of material values, stands you in good stead in the professional world. True, you have expensive tastes, and you may be extravagant - yet your conviction that money attracts money and that the world will abundantly provide, will normally ensure prosperity - unless there are strong counter-indications in your horoscope. Listen to your instincts in these matters - you know whether material circumstances can sustain growth, and whether to expand or play it safe. In business matters you are careful and reflective, and always willing to lean towards safety, rather than risk. You know how to give and receive solid advice.

PERSONAL - WISDOM: Believe in abundance

You were born in a year where there was a strong focus on the material resources of the world, and the consequences of and possibilities for growth. As such you have the ability to create the circumstances necessary for growth, and enjoy the material benefits of the Earth. By cultivating your ability to experience deep satisfaction - especially of a sensuous nature - you endow the things you touch with intrinsic value. You have strong and perhaps rather old-fashioned convictions and cling to them stubbornly. You may have a particular gift for tuning in to the body, and tapping the energy which lies within it. This can enrich your life both physically and sexually. Because you have a weakness for the good things in life, there may however be a tendency to overindulge yourself.

Jupiter In 1st House

PROFESSIONAL - WISDOM: Gain understanding

In some ways you have a larger than life image, with considerable intellectual charisma. Generally you will take an optimistic view of life's challenges, and seek to gain a deeper understanding of the meaning of your existence. Professionally you have the ability to motivate others through your example, especially as regards empowering others with hope and faith in what the future may bring. Other may come to you for professional advice, and your opinions will generally carry weight. Intellectual, philosophical or religious interests, coupled with a desire to expand your horizons, may play a part in your career. Important journeys can bring profound changes in your views about life, and work abroad may have appeal for you. You receive a considerable boost every 12 years of your life, as Jupiter returns to its birth position.

PERSONAL - WISDOM: Gain understanding

You will have considerable influence on others through your opinions. At best you can really expand the vision and understanding of others, but at worst you can be rather intellectually dominating. You like to embrace broad views and have little time for triviality - though plenty of time for humour. You enjoy life and know when not to take things too seriously. Other people can feel small or even ignorant in your presence - make allowances for this. You have deep convictions on a religious, political or philosophical level and probably enjoy a good discussion. Generally you display a great appetite for life, are willing to take a gamble and often ride to success on your unshakeable faith in a benevolent future.

Jupiter Conjunction Saturn

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

This connection between two planets shows a fusion of two principles for good or ill. You integrate quite different energies and express them as one process. This manifests as a strong personal character trait.

PROFESSIONAL - WISDOM: Cultural values

You have the capacity to attain a meaningful and powerful position in society. Having the ability to sense the right time, and be in the right place, you know how to take advantage of professional trends to create expansive conditions for professional growth. If all goes well you can consolidate your position after a period of expansion, and from this new foundation go on to create further growth. The main issue as regard success is the ability to have faith in the future and act on it. Periodically you may be overwhelmed by pessimism and lack of confidence. At these times the future can seem dark indeed. At other times you can be overoptimistic as regards future possibilities, and fail through lack of judgement or preparation. Courses which train your ability to plan, combined with training positive thinking, will greatly benefit you. You can work in central positions in organisations because you inspire the feeling of stability and trust. You may have a talent for planning, consultancy and organisation - and you have the capacity to create structures in society which bring lasting benefit.

PERSONAL - WISDOM: Cultural values

When this influence manifests positively you can create an environment around you full of confidence and certainty about the future. In difficult circumstances however, you can feel great despair as regards what the future will bring for you. This is especially strong in respect to your need to fulfil the expectations of society and those closest to you. Your moods tend to swing from optimism to pessimism. You are especially concerned as to whether you have the necessary training or experience to realise your ambitions. Obviously you will benefit from training courses to increase your skills, but you still have to struggle with nagging doubts regarding your competence and intelligence. It is precisely this insecurity which leads to great personal development as you constantly strive to gain insight and understanding. You can have rather dominating opinions, and it is worth asking yourself whether they truly are your own opinions. You often allow your views to be swayed by parental convictions or current opinion. However you tend to mature like a good wine in this area, and your own ideas may end up having a major influence on your environment.

COLLECTIVE - WISDOM: Cultural values

Saturn and Jupiter are the giants of the solar system, each with their own systems of moons. As Saturn's orbit of the Sun takes nearly 30 years, and Jupiter's 12 years, they meet precisely every 20 years. This cycle is reflected by vast structural readjustments in society, inaugurating new periods of hope and growth. Every fifth American president is elected under this influence, the last two being Ronald Reagan, and John F. Kennedy.

The principle idea of this planetary aspect-cycle is initiating and building on new ideas and concepts about the future. As this influence can last up to a year, everyone born in this period will play a role in realising a future vision of structural growth in society, and some individuals will personalise the influence to become pillars of this new society. Ideas about banking and finance, building and construction, teaching and education, foreign and domestic policy, the rule of the law etc., will all be formulated, developed, run into trouble or bear fruit, during the different aspect phases. As Jupiter represents a new vision of the future, as well as justice and the law, whilst Saturn represents the executive,

tradition and the structure of society, the interaction of these planets brings upheaval and adjustment on every level, as the past collides with the future.

Jupiter Conjunction Uranus

It may be difficult for you to discern the influence of this combination of planetary energies, as it has only a mild effect in your chart.

Two energies are unified into one in this planetary aspect, and you will express this energy in a very personal way, for good or ill depending on other factors in your chart.

PROFESSIONAL - WISDOM: Exhilaration

This aspect can last for a number of months and have a strong collective influence. If you harness this influence in your career you will have a strong idealism both socially and as far as introducing new methods are concerned. Your provocative views will be a challenge to the establishment. You are an internationalist, and wish to concern yourself with issues that cut across national borders. This can bring travel to exotic lands and contact with exotic cultures. You can channel enormous enthusiasm about the future into your career - for you the path of liberation lies in innovation and experimentation. You would thrive in an international organisation, and as you also have strong humanitarian tendencies you may choose to work in a field which has to do with social reform or perhaps consciousness-raising.

PERSONAL - WISDOM: Exhilaration

You have a driving need to expand your philosophical boundaries and this can lead to unusual personal interests and provocative opinions as regards both personal and social development. You can have some form of connection to the New Age movement, and are very interested in reforms. You will almost certainly embark on dramatic long-distance travels and experience enlightenment through new contacts established thereby. In relationships you are inspired by partners and groups who can share your untraditional interests. An international group can have a radical effect on your life. You pride yourself on your open-mindedness and tolerance - yet you are intolerant of intolerance. You tend to upset groups with your radical opinions, but perhaps you could achieve your goals more effectively by understanding the traditions that lie behind established opinions.

COLLECTIVE - WISDOM: Exhilaration

As Uranus takes 84 years to orbit the Sun, and Jupiter 12 years, they meet each other in conjunction every 14 years. This cycle is experienced on a collective level as a burst of technological progress and euphoria concerning change and progress. For example Armstrong took his first step on the Moon at the exact time of a Uranus/Jupiter conjunction in 1969. President Reagan dreamt up his "Star Wars" idea at the time of the next conjunction in 1983. Humanity is gripped by exhilaration and a new sense of its destiny. This influence also brings revolutionary changes to the organised education system, student rebellions, judicial reform, New Age convictions and radical new developments in travel - for example mass tourism. It is a time when there is a surge of revolutionary energy amongst young people and often an optimistic economic expansion.

Jupiter Sesquisquare Neptune

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

The influence of this aspect is deeply unconscious and sporadic, though when felt it can manifest itself in uncompromising conflict

with others.

PROFESSIONAL - WISDOM: Expansive dreams

As these planets are relatively slow-moving their influence is felt most on a collective level. Insofar as you channel their influence in your profession you will wish to work on the collective effect of knowledge, the intellect and social influence. There may be a talent for marketing or advertising or selling a dream or vision. There can also be a drive to evangelise on a social, religious or political level. You can be strongly motivated by altruistic ideals and identify with some kind of vision or dream that transcends your own dreams. On a more down to earth level there can be a talents for dealing with oil and related products - particularly plastics. There may also be an interest in oceans, the film industry and anything which enchants on a collective level. You can be hopelessly overoptimistic - heed realistic advice!

PERSONAL - WISDOM: Expansive dreams

This influence shows that you can be moved by dreams and visions. There will be some aspect of your life in which you are touched by something magic that completely transcends your everyday life. This can bring great happiness, if you choose to cultivate your intellectual drive towards greater spiritual understanding through creative, artistic or meditative interests. At the same time there may be a total lack of grounding, or a tendency to be completely absorbed by unrealistic ideas. There are dreamers of dreams who achieve nothing, and weavers of dreams, who can bring visions down to earth. Ultimately people will be disappointed in you, if you are the former. You have the capacity to make faith and hope guiding lights for your actions.

COLLECTIVE - WISDOM: Expansive dreams

As Jupiter takes 12 years to go around the Sun and Neptune 165 years, the two planets meet in a conjunction cycle every 13 years. It is a time of spiritual progress. At this time humanity is gripped by great hopes concerned with an ideal future of some sort. People work to achieve Utopia - and though as a rule disillusion comes, there will be a period when people are joined in unselfish love for a shared ideal. This is a time when the bubble expands, when optimism exceeds all bounds, when the balloon rises to the greatest heights. Before everything comes down to earth again the human soul is enriched and touched by the divine. Intangible things become tangible in a magical way - there can be a special emphasis on music, art and the media.

Challenges

Saturn In Taurus Retrograde

This planet is retrograde, and in the areas concerned you have a tendency to go against the grain, harvesting experiences of an intensely personal nature and drawing your own special conclusions.

PROFESSIONAL - SELF-RELIANCE: Solid values

Saturn was in Taurus in the years 1939-42 and 1969-72. At this time there was a strong refocusing on economic resources and the values in society. This will also be a central issue for you in your professional life, and you will find yourself struggling hard to attain the economic stability which can make you feel secure. You have the capacity to administrate resources in one way or another, and you will pull hard, along with your generation, to create foundations for economic growth. You are also acutely aware of your own worth as measured by your own earning power. It is difficult for you to feel satisfaction in this area, and you work hard to constantly improve your financial situation, even though it may

seem quite stable in the eyes of other people. You are of course strongly influenced by the spirit of the time when you were born, where society became acutely aware of scarcity.

PERSONAL - SELF-RELIANCE: Solid values

Self-worth is a major issue for you, and it is by no means easy for you to feel deserving. You may find yourself working extremely hard - for you are a persevering character - to attain material goals which can convince you of your worth as a human being. However there will be times in your life when you have to redefine your attitude towards material things as a yardstick for personal worth. One of the secrets of contentment is learning to feel an inner satisfaction and gratefulness for what you have got, rather than focusing on what you have not got. You can learn a lot by tuning into your physical senses and your bodily needs, and learning to appreciate simple sensory pleasures.

Saturn In 1st House

PROFESSIONAL - SELF-RELIANCE: Develop self-esteem.

You take a serious view of life - partly because you have had to overcome many challenges in the first 30 years of your life. As you work hard to overcome a naturally shyness and tendency to underestimate yourself and your abilities, success tends to come later in life. Nevertheless, being hard-working and persevering, you will attain a responsible professional position through sheer determination. You are ambitious, drive yourself hard and have a low expectation level. People see you as responsible with impressive self-discipline and drive. Once you overcome lack of self-confidence you will discover that you have considerable administrative ability and the power to wield authority.

PERSONAL - SELF-RELIANCE: Develop self-esteem.

Difficult experiences connected with your family structure undermined your self-confidence as a child and have given you are rather negative picture of yourself. This lack of self-esteem will also have a tendency to dampen the spirits of those around you in your environment earlier in your life. Only when people get to know you and your self-deprecating humour, do they feel comfortable. The people you meet often feel that you rebuff them and misinterpret their good intentions. Experience has evoked in you a certain suspicion and scepticism, and you need plenty of time before you feel you can trust others. However, once you allow yourself to thaw, and let your barriers down, you can be a loyal and trustworthy friend and partner. By cultivating a positive attitude to yourself and your future, you can greatly speed up your personal development.

Saturn Conjunction Uranus

It may be difficult for you to discern the influence of this combination of planetary energies; it is weak and may be outweighed by stronger influences.

This conjunction shows a fusion of energies in you. Both the positive and negative sides of this aspect will be an integral part of your character.

PROFESSIONAL - SELF-RELIANCE: Structural renewal

This rare combination of planets is part of a 46-year cycle, and the influence will affect everyone over a period of approximately a year. In so far as you channel this influence through your career you have the capacity to deal with large organisations and will often find yourself in the position of establishing a bridge from the old to the new. With one foot in tradition and the established values of collective experience, you will also have to deal with the necessity of reform to adjust to a new future. Depending on which side of this equation you are on, there can be conflict with established authorities. Thus you will often be confronted by two separate and very different camps with very different viewpoints. You deal with social structures which have outlived their usefulness; perhaps a revolution is necessary to make room for the future. You can be skilled at finding ways of putting new technology to practical use. You can work in areas concerned with social reform.

PERSONAL - SELF-RELIANCE: Structural renewal

Your personal struggle is very much connected with when to release your attachment to the past and open yourself and your life to the necessity of change. Often you hang on to restrictive life patterns too long, and when sudden change comes - as it invariably does - the edifice you have built up can disintegrate as you uncompromisingly embark on a completely new venture. You tread the tightrope between generations and have the capacity to bridge the gap between young and old. Sometimes you identify with the establishment, yet there will come decisive breaks as you violently strive to adjust to change. You have a role in society in which you should bear the banner of reform.

COLLECTIVE - SELF-RELIANCE: Structural renewal

As Saturn takes a little under 30 years to orbit the Sun, and Uranus 84 years, these two planets meet in a conjunction cycle every 46 years. Saturn represents the forces of the past and the establishment, and Uranus the force of the future. Needless to say, this is an uncomfortable meeting which tends to bring violent upheaval in the world. In mythology, Saturn, who never was very keen on change, castrated Uranus. There was a conjunction in 1942 during World War II, and in 1988 which marked the beginning of the end for the Soviet Union and Eastern Europe. This combination shows the degree of integration of reform in society, and, depending on the kind of aspect, how peaceful this process is. Generally there is a strong polarisation between the old and the young at stressful phases on this cycle - for example during the opposition in 1965, when young people dropped out of established society. The aspect also marks milestones in the practical use of modern technology.

Saturn Sesquiquare Neptune

It may be difficult for you to discern the influence of this combination of planetary energies as it is not a strong configuration in your chart.

As there is tension between these two planetary influences in your chart, it will be very difficult for you to achieve the promised beneficial results before the age of 30.

PROFESSIONAL - SELF-RELIANCE: Dissolution of structure

These two slow-moving planets form rare aspects as part of a 36-year conjunction cycle. Insofar as you express this influence in your professional life, you will be concerned with making dreams real, and bringing visions down to earth. This may be expressed politically, through concerned social work, or perhaps your career will be touched by some other form of contact with the pressing social issues that this aspect symbolises. This can mean dealing with suffering in one form or another, for example loneliness or

poverty, old age, alcoholism etc. As regards your own ambitions, you will often feel that you are driven by a deep sense of professional dissatisfaction, and even the goals you attain may seem empty once they are achieved. True meaning is found in some form of service in which you sacrifice personal ambition for a universal cause.

PERSONAL - SELF-RELIANCE: Dissolution of structure

Though this aspect is felt mostly on a collective level, there will be times in your life when you are struck by a deep sense of sadness or tragedy. In some peripheral area of your existence you will encounter deep suffering which will make a lasting impression on your attitude to life - particularly as regards the drive for personal achievement. This kind of experience may tend to make you escapist in one form or another, or you may feel a strong drive to find personal meaning through work, service and sacrifice. During the course of your life you learn to find hope, when things seem most hopeless. You are very aware that personal status and material achievement give no lasting answers to human dissatisfaction; it is the inner, spiritual qualities in existence which count. If you have personal planets contacting this aspect, you will feel the influence very strongly.

COLLECTIVE - SELF-RELIANCE: Dissolution of structure

As Saturn takes a little under 30 years to go around the Sun, and Neptune 165 years, they meet every 36 years. This conjunction cycle is experienced powerfully on a political level as the dissolution of government structures which have outlived their usefulness. This cycle is strongly related to socialism, and the last 3 conjunctions - in 1917, 1953, and 1989 - have seen major changes in Russia for example. If there are serious leaks, the ship of state sinks under this aspect. It evokes in the collective spirit the need to take concrete action to improve the situation of the underprivileged, thus much work will be done on hospitals and the social services at this time. The same combination also has to do with imprisonment, suffering and old-age.

Originality

Uranus In Taurus Retrograde

At birth this planet appeared to be moving backwards relative to the Earth. You will learn special lessons in connection with attachments to people and things from the distant past, and a turning point will arise, at some point in your life, in the matters described.

COLLECTIVE - ORIGINALITY: Change of value-systems

Uranus takes 84 years to orbit the Sun and is in this sign for 7 years, representing a collective influence on a whole generation. It shows how you are most influenced by revolutionary attitudes in society. When the Ascendant is in Aquarius this influence will be expressed in a more personal way.

Uranus was in Taurus from 1935 to 1942, and will return from 2018 to 2025. On a collective level this brings economic renewal and new revolutionary methods for utilising resources. This influence ushers in new attitudes to enjoyment and pleasures, and new human values in society which challenge material views. Untraditional ideals replace the money principle, and there is a greater tendency in society to seek alternatives to material security and safe options. World War II for example brought great material destruction and people had to reinvest their faith in their fellow humans.

Inasmuch as you manifest this influence strongly in your personal life, you will have uncompromising views regarding what is of value in society, and a disparaging attitude to overtly material

ambitions. You may be interested in reform of financial systems, and there could be a special talent for mass marketing, dealing with modern products or making pleasures available to the general public.

Uranus In 1st House

PROFESSIONAL - ORIGINALITY: Be unique

You have many unusual and original character traits, and you take pride the elements of your life which are unique. You have a provocative style and a desire to bring renewal in your personal environment. Professionally you are not suited to a job which cramps your style, and you may prefer to strike out on your own. You have inventive talents, global interests and a need for unpredictability in you day-to-day life. There may be talent for untraditional or futuristic interests. There may be technical talents or be interest in New Age matters - but whatever you do you need to feel that you have a special role, perhaps a little bit on the periphery of society. Sudden and radical changes in your professional direction are to be expected. The lure of exotic climes may bring travel.

PERSONAL - ORIGINALITY: Be unique

You were probably born under unusual circumstances which in some way created an outsider mentality in you. You have not taken kindly to parental influence, preferring to make your own rules as you go along. You tend to prove your point by doing the opposite of what is expected of you. You have a slightly disturbing influence on others, as you like to provoke changes in your environment. The more extreme your life-style and opinions, however, the more you are likely to feel alienated. You walk the delicate tightrope between creating much-needed renewal or just upsetting others. Nevertheless you can be well-liked, and probably enjoy a wide spectrum of friends. As you do not believe in favouritism in any shape or form, you can attract very unusual people into your sphere of influence. In partnership matters you insist on personal freedom.

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life. Because there is a good aspect between these two planets, you can expect the positive consequences to be strong and very creative, and the negative consequences minimal.

PROFESSIONAL - ORIGINALITY: Spiritual revolution

This long-lasting aspect will be shared by everyone born in any particular 4-year period, but if you express its influence in your career you will be able to channel a talent for working with the electronic media on one level, or personal consciousness on

another. There is an electric idealism with this aspect and very little grounding. Some people may be able to tune into latent telepathic and clairvoyant powers, and use them in their job. Contact with international companies which have strong cross-border communications brings good fortune. Work with advanced technology, especially connected with instantaneous communication is another possibility. There is an inbuilt tension between the principles of freedom and service which can be expressed in irrational political and social convictions.

PERSONAL - ORIGINALITY: Spiritual revolution

This aspect has an influence on a particular generation, but you may personally feel and express its power through an interest in aspects of human consciousness which are on a very subtle level. This can relate to the power of dreams, clairvoyance etc. - in fact the whole spectrum of the New Age movement. If personal planets also aspect these distant planetary giants, you will feel a deep longing to transcend yourself through some kind of spiritual interest. Drastic changes will occur in the pursuit of your dream, and you may be willing to abandon the secure structures you have built up to follow your ideals. Needless to say you will often be disappointed, but the whole process enhances your awareness and spiritual consciousness. You can be deluded by the allure of charismatic personalities - take care.

COLLECTIVE - ORIGINALITY: Spiritual revolution

These two planets conjoin once every 172 years, so aspects between them are rather rare. There was a trine during World War II, and a square in the mid-fifties. Most recently they were in conjunction in 1993 for the first time since 1821. As Neptune was only discovered in 1846 this last conjunction is the first to take place with the knowledge - and after Voyager 2's flypast - participation of humanity. This aspect brings deep-seated change to the consciousness of humanity. On one level the advanced technology of the period transcends border and race to join all nations together. Global communication warps and undermines accepted notions of time and space. Revolutionary change comes to governments as they integrate the very disparate need to be individual and independent with the need to belong to a greater whole. This signals a growth period for electromagnetic energy and the media, as well as all forms of electronic communication. On an inner level there is a spiritual revolution, with the flowering of esoteric interests.

Uranus Sesquisquare N. Node, Uranus Semisquare S. Node

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

As there is tension between these two planetary influences in your chart, it will be very difficult for you to achieve the promised beneficial results before the age of 30.

PROFESSIONAL - DESTINY: The lightning rod

Exciting things happen around you, wherever you are, and you are destined to galvanise into action the groups and organisations you are involved with. You are a force for renewal in those situations that have ground to a halt, and you can channel a message of inspiration or revolution. On the other hand, you tend to light the bomb and walk away, often being seduced by the idea of change for its own sake, and rarely having the ability to handle the consequences. There may be an element of extremism in your nature, and an attraction to extremist groups, or to people on the fringes of society.

PERSONAL - DESTINY: The lightning rod

You are possessed of a magnetic aura which can be very inspiring for the people who meet you. Nevertheless you are also an upsetting influence, so that although people may look to you for inspiration, they may feel a certain discomfort in the long run. Indeed it is your fate to be something of a provocateur - you do not believe in people getting too comfortable. You are a force for change, and may have a particular ability for New Age interests, dealing with subtle energies etc. Dramatic consciousness change at intervals in your life can sweep the ground from beneath your feet and carry you off with your head in the clouds.

Transcendence

Neptune In Virgo

COLLECTIVE - TRANSCENDENCE: Universal service
Neptune takes 165 years to orbit the Sun, and approximately 14 years to go through one sign. Its influence affects a whole generation, and is associated with a new sensory and spiritual awareness, and greater compassion, in connection with the sign it is in. For most people this influence is experienced on a collective level, but those who have their Ascendant in Pisces will express it in a personal way in their lives.
Neptune was in Virgo from 1929 to 1942, and it will return to this sign from 2092 to 2106. There is a tremendous collective focus on employment and labour relations at these times, as traditional work roles are undermined through a gradual dissolution of established labour norms. Much social legislation is enacted to improve work conditions and public health, and many idealistic projects are launched to galvanise the working spirit of nations. If you channel this influence in a personal way in your horoscope, you will be motivated by the idea of service on a personal, political or spiritual level. You will experience much dissatisfaction in your own working life because of your tendency to downgrade your own needs. On the other hand you may be able to perform some deeds which have a wide-ranging effect on your environment. You are motivated by concern for Nature, especially as regards purity and pollution, and there may be a special talent as regards health or healing.

Neptune In 6th House

PROFESSIONAL - TRANSCENDENCE: Everyday rituals
You have some very specific talents that can be useful in your professional life. There may be a knowledge of chemicals, liquids, photography, the ocean or advertising. You like to be able to lose yourself in your work - either through being creative, through watching magical processes, or because you can be of help to humanity in some way. You are inspired by the idea of service and sacrifice for the benefit of others. Often you will find situations developing at work which are beyond your control. In the long run you will find that work which does not offer spiritual or creative perspectives will render your life meaningless. Periods of unemployment can actually be beneficial for you, even though you may feel helpless, because they help you meditate on what is really important for you, and how you can be most useful in your life. You need to be able to work alone or at least have a pure and peaceful working environment.

PERSONAL - TRANSCENDENCE: Everyday rituals
You are motivated by the spirit of service, but this may mean you do not know where to draw the line as regards work-sharing in partnerships. If you do not set a limit for what you do, you may end up being overloaded with work. You tend to have sloppy work methods, and you would benefit greatly from more efficient planning. Being inefficient is an unconscious tactic effectively

preventing other people making demands on you. Being helpful is no help to anyone if you do not take your own needs into accounts. Health problems will often be mysterious or difficult to identify - your body obviously knows how to set limits when you fail to do so yourself. You may have certain talents for healing as a result of an intuitive ability to tune into the physical, mental and spiritual needs of other people.

Transformation

Pluto In Leo

COLLECTIVE - TRANSFORMATION: Individual power
Pluto has an irregular orbit around the Sun which takes about 248 years. When Pluto is closest to the Sun it takes only 12 years to traverse a sign. When it is furthest away, it takes approximately 30 years. Its influence is felt collectively on a very deep level in society, bringing trauma, transformation and renewal in regard to the sign it is in. Individuals with their Ascendant in Scorpio may express this influence in a personal way, otherwise its effect is expressed as an underlying influence on a whole generation.
Pluto was in Leo from 1693 to 1711, and again from 1939 to 1957. These were times of power politics with charismatic leaders wielding dictatorial power. This was a period in which power was concentrated in the hands of an elite, and when hero-figures played an important formative role on the national psyche. Entertainment became a new force to sway the masses, and a new freedom based on increased leisure put the emphasis on individual development and self-realisation.
If you express this influence in your personal life, you will have a forceful character and charismatic influence on others. You have very strong personal convictions and principles, which you will express in an uncompromising way. Being a natural leader, you resent being bullied by anyone in authority, though you can be rather autocratic yourself. A series of identity crises during the course of your life - perhaps because of events concerning children or love-affairs - will lead to radical changes in direction as you redefine your goals in life and your attitude to personal power.

Pluto In 5th House

PROFESSIONAL - TRANSFORMATION: Transforming self-expression
You can make a powerful impression on others, and this can be both a blessing and a curse in professional matters. You may be too concerned with power and impact on others, and this can

prevent you from gauging their reactions. Your anxiety concerning the way you present yourself can obscure the actual goal you are trying to achieve. Rest assured people are impressed, and relax - otherwise you will exhaust others with your presence. You have enormous resources when dealing with children, especially those with psychological problems. On the outside nothing appears to faze you; on an inner level you exert superhuman self-control. You are inscrutable and may have a future in playing poker.

PERSONAL - TRANSFORMATION: Transforming self-expression
A trauma from early childhood often makes you overcompensate when you express yourself - you can be overly-forceful. In love a desperate need to be respected as an individual drives you into intense affairs which often turn out to be traumatic - perhaps because you demand the impossible instead of relaxing and giving love. You may put yourself in a position where you end up humiliated, or conversely where you have all the power. A deeper self-knowledge and psychological insight helps you avoid exhausting experiences in this area. Having children tends to awaken anxiety in you - for example a completely unfounded fear of accidents etc. You have to learn to trust in the universe as regards the fate of your children, otherwise you could exhaust yourself fighting shadows. You may find yourself in a relationship in which you have to be a parent of a child who is not yours biologically. Although this can be an alienating process, this kind of parental role may mirror how you felt as a child, and as such can have a healing influence.

Destiny

N. Node In Libra, S. Node In Aries

PROFESSIONAL - DESTINY: Two to tango

The early part of your professional life is characterised by a strong need to excel and make some impact in a unique way. There is an emphasis on your personal independence, and you have the tendency to go it alone in your career. There is a desire to be number one in what you do, and in the early stage of your career you make dynamic efforts to achieve a special individual status. However, you are likely to discover that career satisfaction eludes you, when you attain personal success, and that success itself is difficult to attain alone. It is your destiny to subordinate your ego needs to a growing awareness of the importance of professional relationships. Personal advancement alone cannot satisfy you in the long run. You achieve far greater satisfaction when you involve yourself in co-operative ventures and share successes with other people who are on your wavelength.

PERSONAL - DESTINY: Two to tango

A major dilemma in your life is in finding a balance between listening to and acting upon your own personal needs as opposed to taking into consideration and compromising with the needs of

others. You are inclined when young to exclusively follow your own inner voice, reasoning that you must take care of yourself first. You insist on your independence, and see compromise as weakness. However this independence can bring loneliness or emptiness, and a deep longing arises to share your life's experiences. A transition comes in which the emphasis shifts towards awareness of the needs of others, and in partnership matters you will desire to make a stronger commitment. By embracing the challenge represented by dealing with another on an intimate level, and by exchanging hollow independence for an enriching partnership, you attain a new harmony in your life.

N. Node In 6th House, S. Node In 12th House

PROFESSIONAL - DESTINY: Being of use

The early part of your life will bring a number of difficulties as regards professional success. You often prefer to be alone and have difficulty working with others - although job security and success is something you have a deep inner longing for. As you get older - and certainly by the age of 37 - you will have overcome your isolation tendencies and discovered the pleasure of having colleagues and people who can share your everyday experiences and ideas. Sometimes you can despair when you see how easily other people integrate themselves into a work environment, whilst you feel alone and misunderstood. Later in life you will attain success, and you will find that the skills you developed as a loner will have a beneficial influence in your working environment and dealings with others. You are particularly motivated by the idea of service for humanity.

PERSONAL - DESTINY: Being of use

You are a spiritually motivated person - even to the extent of spending the early part of your life withdrawn from the world, cultivating meditative or private creative interests. You can have a deep sense of belonging to the universe but as far as integration on a worldly level is concerned, you have a reluctance to go out and integrate yourself with others. Later this enforced loneliness becomes oppressive and you desire integration in a normal daily working rhythm. Isolation is not healthy for you in the long run, and true development in your life only comes when you apply your talents for the benefit of others. It is important for you to overcome a sense of being a victim in the world. Feelings of martyrdom undermine your ability to achieve practical results in your life. Old sorrows surround you like ghosts, but this cloak of suffering needs to be cast off. Work is healing for you.
